

## Nickel Brazed Plate Heat Exchangers

Nickel Brazed Plate Heat Exchangers have superior corrosion resistance when compared to copper brazed units.

The plates are manufactured from AISI 316 stainless steel with nickel brazing.

We have a range of sizes available from stock for immediate delivery.

### Advantages

- Low purchase price
- Compact design
- High thermal efficiency

### Typical Applications

- Laser cooling
- De-ionised water
- Ammonia systems
- Corrosive liquids
- Swimming pools
- Methanol gas condensing
- Silicone oils

### Insulation Jackets

All heat exchangers can be supplied with Insulation Jackets to reduce energy losses

### Other products from UK Exchangers Ltd

- Gasketed Plate Heat Exchangers
- Air to Air Plate Heat Exchangers
- Thermal Wheels
- Finned Tube Coils
- Hot Water Packaged Systems
- Shell & Coil Heat Exchangers
- Corrugated Tube Heat Exchangers
